

IN PRACTICE

The Impact Statement Series

Part 2

Triodos  Bank

INTRODUCTION

TRIODOS BANK

Triodos Banks presents in its integrated annual report Impact Statements that look at the **valued social and environmental impact** of their (renewable) energy investments. Quantifying and valuing social and environmental impacts helps the bank to understand the **absolute and avoided impacts** of its energy investments.

Let's dive in 

ENVIRONMENTAL IMPACT STATEMENT OF TRIODOS BANK

Negative environmental impact of Triodos Bank's wind and solar financing in 2023

Environmental Impact of attributed kWh generated (In € million)

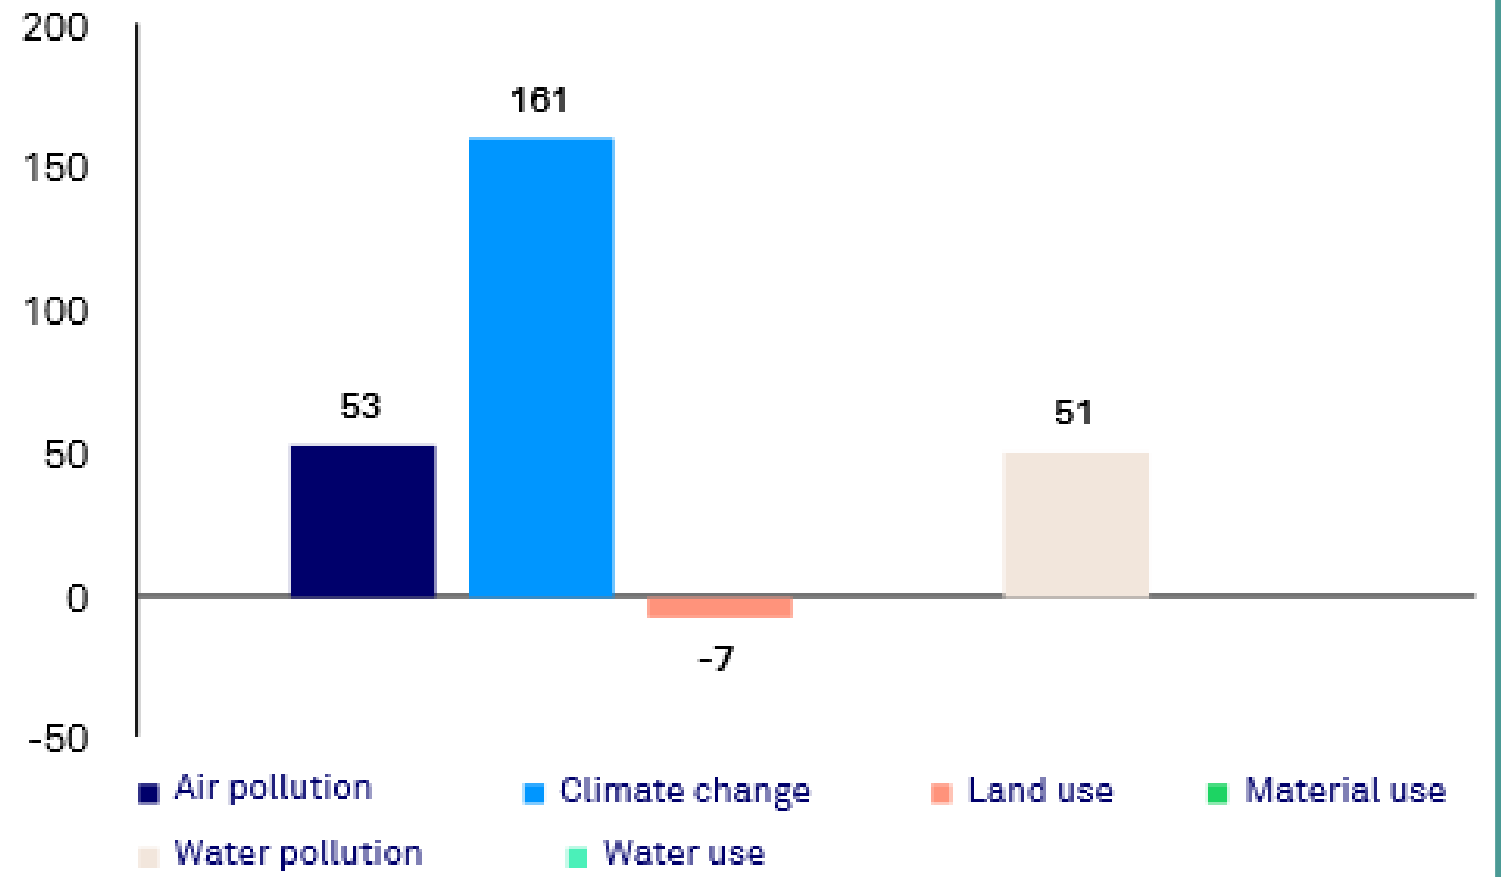

As Triodos invests in responsible renewable energy projects, the bank has a lower negative environmental impact compared to the overall electricity grid mix of **EUR 258 million**.

Take a closer look at the avoided negative impact:

Avoided negative environmental impact of Triodos Bank's wind and solar financing in 2023

Avoided negative environmental impact of attributed kWh (in € million)

Avoided negative impact per euro invested of Triodos Bank's wind and solar financing in 2023

Avoided negative impact per euro invested (in €)

For every invested EUR in solar and wind projects, 10 cents and 16 cents of negative impact are avoided respectively.

SOCIAL IMPACT RISK STATEMENT OF TRIODOS BANK

Social impact risk of Triodos Bank's wind and solar financing in 2023

Social impact risk of attributed kWh (in € million)

Potential social risks due to the intricate value chains of wind and solar projects involving mineral extraction, material production, and manufacturing, often in regions susceptible to human rights violations. As a result, financed projects may inadvertently contribute to adverse social impacts upstream in their value chains.

MAIN TAKEAWAYS

1

Integrated Value Assessment

Triodos Bank gains comprehensive insights into its operations by evaluating the impacts of its activities across diverse capitals, fostering a holistic understanding of its value creation for society.

2

Decision-Ready Insights

The valuation of impacts allows for comparisons and prioritization between investments. This means Triodos Bank can more effectively assess and mitigate potential negative environmental and social impact, ensuring support to those that can confirm strong commitment to environmental and human rights.

3

Performance

Through the various reference scenarios, Triodos understands better how the bank performs on social and environmental impacts relative to other financial institutions.

4

Harmonized impact language

The comparability of impacts, facilitated by the monetary valuation of impacts, serves as a central element in enhancing communication among various stakeholders.

Embrace the journey of impact measurement and management with an IP&L alongside these leading organisations.
